- Dates of involvement:
- Roles and Responsibilities:

- One per applicant
- Submit electronically to residential@colby-sawyer.edu
- Place YOUR NAME in the subject line
Part 2: Individual Questions

(Please provide a short answer to each of the following questions)

☐ As an individual
  o As you consider your application, please discuss three specific personal traits and/or experiences you have had that demonstrate your maturity and readiness for apartment style living.

  o How will living in an apartment, with this particular group of people, contribute to your success as a student?

☐ As a member of this group
  o What is your typical role in this group? (Typical roles include mediator, harmonizer, peacemaker, communicator, comic relief, organizer, leader, and listener.)

  o What do you enjoy, and what frustrates you, about this role?

  o How have you displayed this role within the group? (for example: during a conflict, during a time of high stress, as the group completed this application)

☐ As a member of the greater campus community
  o Please discuss an interaction or experience, positive or negative, you have had with any department on campus, a staff or faculty member, or a fellow student. We are most interested in what you learned from this interaction, and why you believe it has better prepared you for apartment style living.

  o To the Selection Committee, an important indicator of your readiness to live in an apartment can be demonstrated by what you have learned from experiences such as appearing before community council, paying a large bill for individual damage, or losing parking privileges. If you have had any such experience, please discuss what you would do differently in the future and why this should not keep you from being considered for an apartment.

☐ Do you anticipate that you will need to return to campus as an early arrival in August? __
